

Company Profile

Integrated Design & Construction Solutions

Introduction to DMMAC

DMMAC is a leading provider of integrated construction services, offering architectural design, structural engineering, and complete construction solutions. From grey structure to finishing, we manage every aspect of the building process for residential, commercial, high-rise, and government projects.

At DMMAC, we believe in transforming your vision into reality with precision, innovation, and excellence. Our holistic approach combines expert design, engineering, and construction, ensuring every project is executed to the highest standards. With a dedicated team of professionals, we deliver comprehensive solutions that meet the needs of our clients while setting new industry standards for quality and sustainability.

We don't just build structures; we create lasting legacies that stand the test of time. Partner with us to turn your aspirations into stunning, functional infrastructures that inspire and endure.

CEO's Message

As the CEO of DMMAC, I am proud to lead a team that brings over 15 years of expertise in civil and structural engineering. With a PhD in Civil Engineering, I have dedicated my career to transforming visions into reality through innovation, precision, and sustainability.

At DMMAC, our mission is to provide comprehensive construction solutions that exceed client expectations, from architectural design to project completion. We are committed to quality, safety, and delivering lasting value in every project.

Partner with us to turn your aspirations into enduring structures. Together, we'll build a future that stands the test of time.

Dr Mubashir Ajmal

VISION

To become a global leader in the construction industry, expanding from mid-range projects to delivering premium, large-scale, and international developments, while maintaining our technical excellence and commitment to quality.

MISSION

To deliver high-quality, sustainable, and cost-effective construction solutions that meet the evolving needs of our clients, with a focus on innovation, safety, and performance.

Our Approach And Core Values

At DMMAC, we believe in delivering competent and innovative construction solutions that prioritize quality and sustainability. Our approach is built on honesty and collaboration, ensuring transparent communication with our clients at every step. From the initial design phase to the final touches, we focus on precision and excellence, upholding the highest standards to create infrastructures that are both eco-friendly and long-lasting.

Competence

Expertise in every phase, ensuring top-tier results.

Honesty

Transparent communication to ensure clarity at all stages.

Quality

Upholding the highest standards to meet clear expectations.

Sustainability

Eco-friendly solutions for lasting impact.

Lift Installation & Maintenance

Why Choose DMMAC?

End-to-End Services

We provide a one-stop solution from design through to construction, managing every aspect of your project for you.

Expert Team

A highly skilled team of architects, engineers, and construction experts with extensive experience.

Sustainability

We focus on eco-friendly materials and energy-efficient solutions for a more sustainable future.

Global Vision

While currently targeting mid-range construction, we are expanding our capabilities to tackle large-scale, international projects.

Our Project Portfolio

Architecture

01 Kanal | Valancia Town Lahore

This architectural design blends modern functionality with classic elegance. The **butterfly slab** on the front adds a unique touch, while **face bricks** on all facades enhance both beauty and durability. A **170 Sft yard** at the center of the house optimizes sunlight, promoting sustainability. With its timeless **classic design**, this home offers both sophistication and eco-friendly living.

Architecture

01 Kanal | Modern Architecture

Architecture

01 Kanal | Spanish Architecture

Architecture

01 Kanal | Royal Architecture

Architecture

01 Kanal | Mediterranean Architecture

Interior Design

Crust Theory (Pizza Cafe) | Khushab

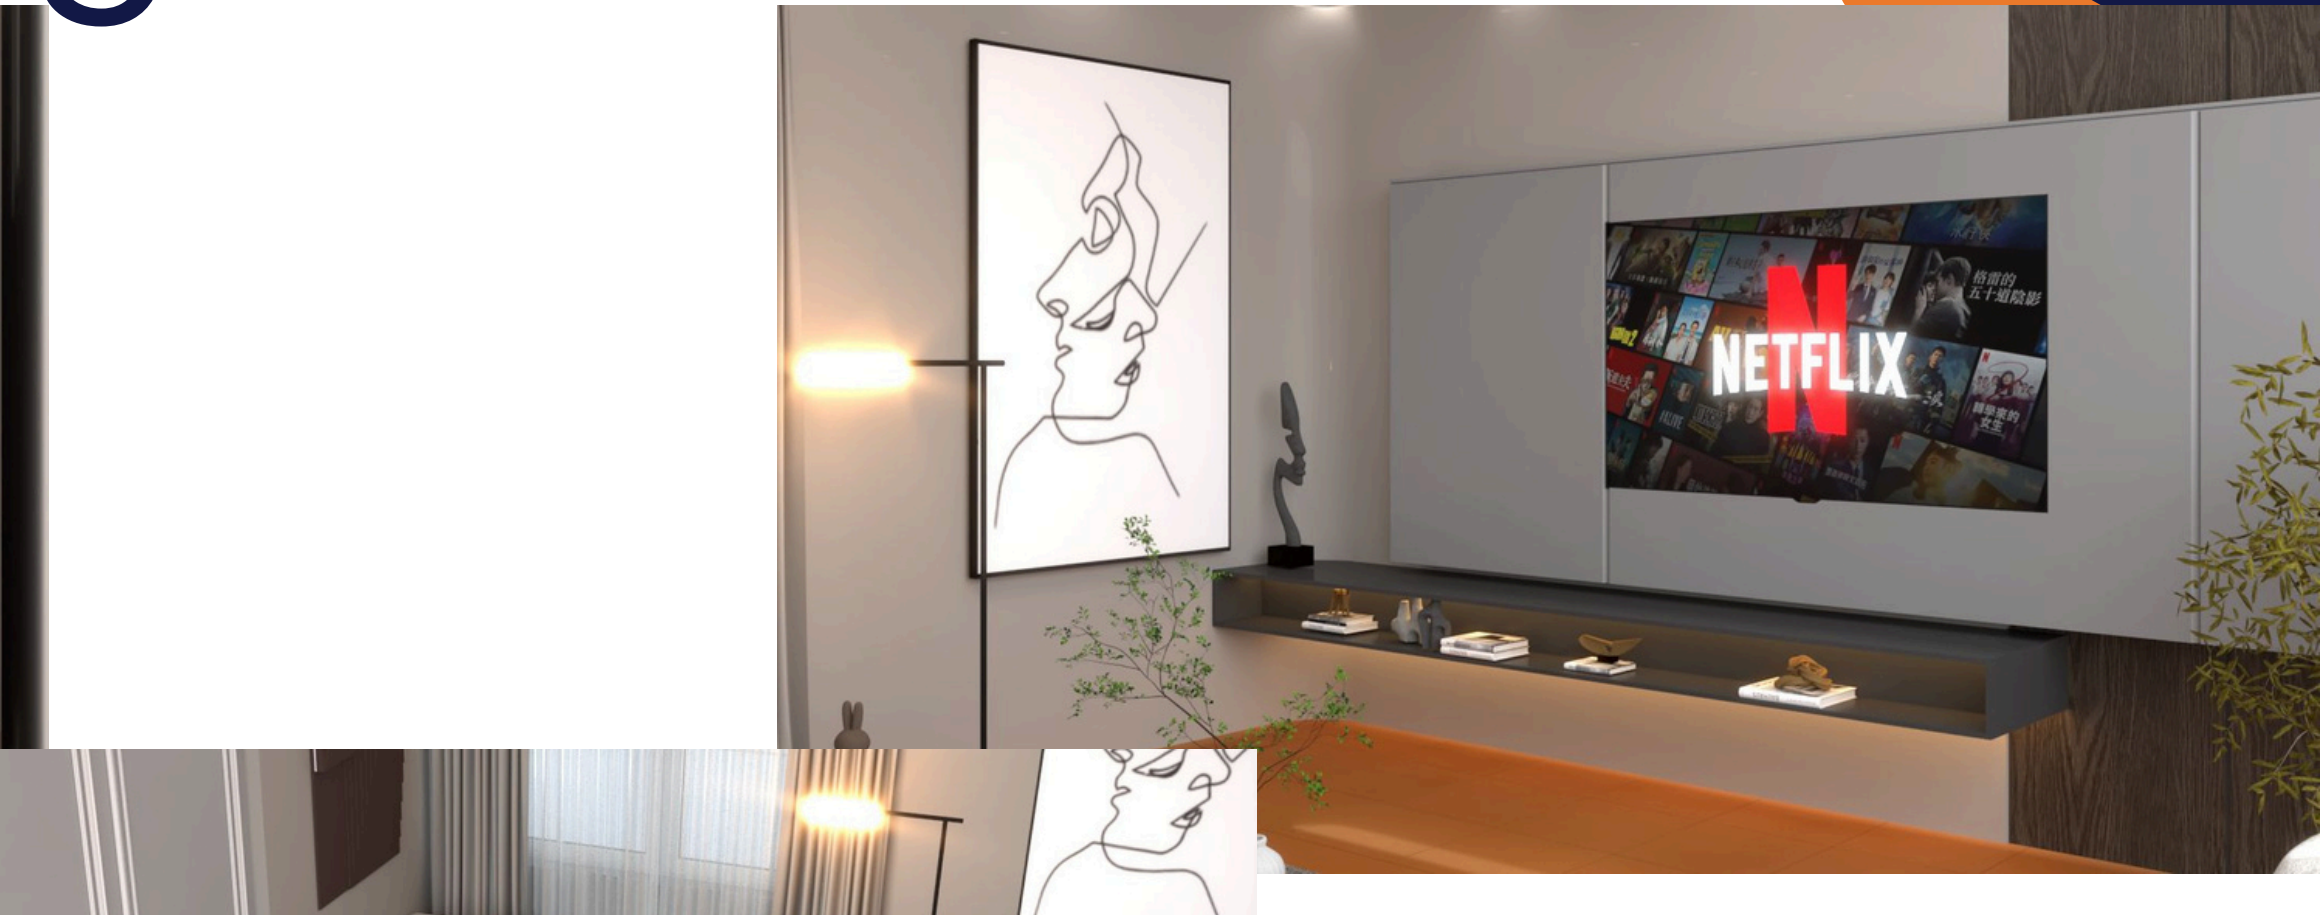

Interior Design

Interior Design

Interior Design

Structural Design

01 Kanal | Valancia Town Lahore

The structural design features a **6-inch thick plinth beam** for enhanced stability and damp proofing, ensuring long-term durability. The **butterfly slab** design not only adds a unique aesthetic but also optimizes load distribution, contributing to the building's structural strength and sustainability.

Structural Design

3000 SFT | Mosque near Pindi Bhattian

The mosque features a **frame structure** with an **isolated foundation** for stability. It has a **maximum span of 30 feet with no columns** in the prayer hall to ensure clear visibility for worshippers. The design also includes provision for a **future second story** and considers the **weight of solar panels**, ensuring strength, flexibility, and future sustainability.

Construction

10 Marla | Bahria Town Lahore

The construction of this house is designed for both durability and luxury. The foundation is **almost 6 feet deep**, built on **hard strata**, ensuring solid stability. Extensive **damp proofing** measures are incorporated, including **double DPC**, a coat of **hot bitumen**, and **double layers of thick polythene**, to prevent moisture infiltration. The slabs are reinforced with **steel as per structural drawings**, ensuring the integrity of the structure. For a premium finish, the interior boasts **luxury tiling**, with a combination of **solid and semi-solid doors**, and walls painted in **bright tones**, creating a sophisticated and elegant living space.

Construction

10 Marla | Bahria Town Lahore

In this **ongoing project**, the substructure works have been completed as per approved structural drawings. The **plinth beam** has been cast to ensure structural integrity and moisture protection. The **underground water tank** and **septic tank** are constructed with proper reinforcement and **water stoppers** at floor bed and RC wall joints, ensuring durability and leak-proof performance.

Construction

Taiga Apparel (Denim Factory) | Lahore

Taiga Apparel's denim manufacturing plant in Lahore is Pakistan's **first LEED® Platinum certified** industrial building. The design incorporates **sustainable** and efficient construction

construction features, including an **effluent treatment plant, cavity walls with Jambolon sheets** for enhanced **thermal insulation, precast hollow-core concrete slabs** in factory zones, and in-situ concrete slabs in office areas. This project sets a benchmark in **green industrial construction and sustainable design.**
